

SOCIAL STUDIES

February 10, 2020

Mrs. Gail Griggs, Teacher

5th Grade

Content to Learn

Your child is about to learn about the civil rights movement. Here are some topics the class will discuss:

- The history and major events of the civil rights movement
- How Jim Crow laws and segregation denied rights to African Americans
- How everyday people, as well as great leaders, fought for and won civil rights for all Americans.

Ideas to discuss

- What major laws were passed in the 1950s and 1960s to protect our civil rights?
- How can responsible citizens take an active part in protecting our civil rights today?

Vocabulary Words

Segregation
Civil rights movement
Nonviolent protest
Desegregation
Discrimination

6th Grade

Content to Learn

Your child will learn about the origin of the Greek alphabet, crafts depicting different Greek Gods, and an introduction to Greek philosophers.

- The Ancient Greeks developed an alphabet for writing. Their common language and writing were one of the things that bound the Greeks together.
- Greek philosophers studied and analyzed the world around them using logic and reason.

Ideas to discuss

- Besides the Greek language, where are Greek letters often used today?
- What famous philosopher taught Aristotle?

Vocabulary Words

Alphabet
Dialogue
Philosopher
Morals
